E-Labeling Services

No more paper leaflets!

**Save paper, save trees,
save space, save costs!**

Your customer downloads the Instructions For Use from www.e-labeling.eu or asks a paper copy by calling our worldwide Freephone Service. No more need for thick multilingual Instructions For Use that are expensive, obsolete or do not fit anymore in the kit box!

Qarion® E-Labeling Services include 2 components:

A dedicated website

- **User-Friendly**

For both yourself and your customer, the website is very user-friendly and designed to prevent errors in downloading the right instructions. The website is available in over 25 languages: your customer can proceed in a language of his own choice. It is entirely web based: no software, password or login required!

- **A powerful marketing tool**

The user, who needs Instructions For Use, will land on a page that you can easily customize according to your own style. Your customers will frequently visit the website to download their Instructions For Use, this will give you the opportunity for direct exposure to your customers.

- **Fully supported and safe**

Much attention is paid to security and data protection. Extensive validation ensures correct performance of the website and its improvements.

A Freephone Service

The website is supported by a multilingual Freephone Service that is available worldwide. We provide the Instructions For Use without your intervention and protect you from abuse of the free telephone numbers for other purposes.
